InFamous: Second Son InFamous: Second Son is an open-world action game, played from a first-person perspective, which sets the player in the shoes of Delsin Rowe, a young mutant with superhuman abilities. Delsin's powers allow him to manipulate magnetic forces, alter matter at a molecular level and control people's minds. Delsin struggles to adjust to life as a full-fledged superhero and must deal with the growing threat of the Void. Grand Theft Auto V Grand Theft Auto V is the fifth installment of the Grand Theft Auto series, the story of which takes place in Los Angeles, where Niko Bellic, a Serbian immigrant, assumes control of the Bellic Family gang. As he strives to make a new life for himself in the American heartland, he attempts to balance family life with his new criminal activity, but it quickly becomes clear that the line between the two is completely blurred. Alan Wake's American Nightmare Alan Wake's American Nightmare is a 2010 spin-off to the 2010 game Alan Wake. The story follows heroine Victoria Halverson as she searches for her missing husband, the police are called in and in the process Victoria begins to uncover the secrets of her husband's disappearance. The game takes place one year after the events of Alan Wake. No One Lives Forever No One Lives Forever is a first-person shooter/action-adventure game developed by a team of ex-Streets of Rage developers, and published by Eidos Interactive. The game is a spin-off of the popular series about the Bond-like spy Solitaire, featured in the Secret Agent series of games. The game's story is a comedic send-up of James Bond films and popular spy novels. Rock Band 3 Rock Band 3 is the thirteenth installment in the Rock Band series and is the last game featuring the original guitar, bass, and drum controllers. Featuring a new, simplified interface, the band editor allows for the editing of drums, bass, guitar, and vocals, but not keyboard parts, and it can be played with a more "traditional" mode by retaining only the six-string guitar controller. Battlefield Bad Company Battlefield Bad Company is the first in the Battlefield series to feature a multiplayer mode that supports up to 64 players. The game features a campaign featuring 7 missions, numerous multiplayer modes, and a customizable character creator.
